

***POINTS OF INTEREST FOR NEW CONSULTANT ORDERING...**

Each one of us make our own decisions as to how much inventory to start with. It does cost money to make money. When I began and to this day, I do not know of any financial opportunity that you can double your money with each transaction. YOU CAN DO THIS as much as YOU CHOOSE! As an Independent Contractor, you choose whether you wish to make this career opportunity Full Time or use it to supplement your income. The Buy Back Guarantee assured me that I could “try” Mary Kay as a business opportunity at virtually NO RISK. (See the example of “being ahead” by trying... DNA Inventory Sheet).

You can also pay off your LOAN anytime you choose (unlike mortgages) so you may want to set a goal to pay the bank off immediately and save money on interest.

The choice is yours. We are here to assist you to be all you can be.

kindest Regards,
Renee Daras
